Breve bio

Martin Bonadeo was born in 1975 in Buenos Aires, Argentina. He is an artist. Ph. D in Social Communication. His doctoral thesis is about human olfactory communication and its function in building up identities has been published during 2005 by the University -Universidad Austral-. He also holds a bachelor degree in advertising. During 2004 he had been a post-doctoral grant holder of the Antorchas Foundation researching relations between art, science and technology for a year at the Hypermedia Studio, UCLA, U.S.A.

He is a professor of Latin American and Argentine Contemporary Art at UCA's (Universidad Católica Argentina) Latin American Studies Program. He also founded and is the director of TECAT (Taller Experimental de Ciencia, Arte y Tecnología) a multidisciplinary space to produce and think technological issues at this University.

In 2000 he started developing art projects and studying art theory and work interpretation with Fabiana Barreda and Monica Girón. From 2001 he showed more than 30 site specific installations for different galleries and cultural centers of several cities including Buenos Aires, Los Angeles, San Francisco, Sao Paulo, Sevilla, Denver and Tokyo.

He was sponsored by Telefonica Foundation to participate in INTERCAMPOS program 2007 and he've also participated in TEC-EN-ARTE program 2008..

He was one of the eight artists selected by the "Arnet a cielo abierto" award jury in 2009 and also for the Premio ArteBA Petrobras Award 2008 jury to produce (financed by them) Thermosynthetic grass. Winner of the 2005 Fundación Telefónica/MAMBA (Modern art Buenos Aires) Art and New Technologies Grand Prix (Grant) to develop "Moebius Display" (project leader in collaboration with engineers, computer scientists, architects and musicians). This project was also supported by OSRAM opto-semiconductors Germany. Winner of 2006 Vida 9.0 (Fundación Telefónica Spain) grant to develop an iberoamerican art + science piece. Project: "dead/alive tree".

He lives and works in Buenos Aires.
